

ALUMINUM FOIL FIBERGLASS TAPE

PRODUCT TECHNICAL DATA SHEET

PRODUCT **Aluminum Foil Fiberglass Tape**

CONSTRUCTION

Aluminum foil and fiberglass cloth laminate coated with a high-performance pressure-sensitive adhesive.

KEY FEATURES

- ? High temperature resistance
- ? Electrical insulation and EMI shielding
- ? Flame retardant
- ? Easy handling
- ? Low VOC and low odor

APPLICATION

High-temperature engine-compartment areas and heat-reflection shielding.

ALUMINUM FOIL FIBERGLASS TAPE

SIZE	COLOR	USE TEMPERATURE
	Silver gray	-40 C to +200 C

TECHNICAL SPECIFICATION

SPECIFICATION	PROPERTY / VALUE
Backing	Aluminum foil + fiberglass cloth laminate
Adhesive	High-performance pressure-sensitive adhesive
Temperature Range	-40 C to +200 C
Flame Retardant	Yes
VOC / Odor	Low VOC / low odor
Standard Dimensions	25 / 40 / 50 mm, etc. x 10 / 20 m
